Subject: Rosemont letter
Attachments: Rosemont Strauss to Joyner 050817-AS.DOCX

We have discussed where we are on the Rosemont project here in the region. We propose that Alexis send the attached letter to Cal Joyner at the Forest Service. In essence, the letter restates that we continue to have significant concerns with this project. However, since the proponent must get an Army Corp permit, we are stating that we will await the Corp's decision before determining our course of action. We think this is an appropriate course of action at this time. Please call if you have questions or concerns or alternatively, Larry can speak directly with Alexis.
